Application form Interview/selection centre References

Northern Ireland Training Programme

Genitourinary Medicine Job Description

Reports to:	Consultants in Genitourinary Medicine in the employing Trust and the Postgraduate Dean
--------------------	--

Contact Information:	<u>Training Programme Director:</u> Dr Eoin Walker Consultant in Genitourinary Medicine Royal Victoria Hospital Grosvenor Road Belfast BT12 6BA
-----------------------------	---

MAIN ACTIVITIES / RESPONSIBILITIES:	
Clinical	The exact duties of the post will depend on the placement and will take into account the training needs of the appointee. All appointees will take part in on-call rotas which will be subject to change as progress is made in relation to targets set by Government for junior doctors' hours.
Managerial	Trainees will have the opportunity to develop managerial skills as they rotate through the various hospitals. Trainees should undertake a formal management training course during the final year of training.
Research	All trainees will be expected and encouraged to have an active interest in research and publication. This does not necessarily mean taking a year or two years out-of-programme to work towards an MD or PhD unless the trainee also wishes to undertake subspecialist training.
Audit	All trainees will be expected and encouraged to have an active interest in audit and will be expected to undertake audit projects during their training.
Education	All trainees will be expected to attend the various educational opportunities provided in their own hospitals and those provided on a regional basis. Trainees should also where appropriate assist in the training and education of others.
Assessment	Regular assessment of progress will be made during the period of training. There will be an annual ARCP assessment at which the trainee will be required to demonstrate evidence of satisfactory progress in order to proceed to the next year.

PLACEMENT ARRANGEMENTS:

Placements between hospitals are administered by the Regional Specialty Training Committee for the School of Medicine and are determined usually on a yearly basis according to the Trainee's educational and training needs. Trainees will rotate through the various hospitals and subspecialties within the Training Scheme. The Postgraduate Dean has

confirmed that these posts all have the required educational and staffing approval. Excellent postgraduate facilities exist at all units.

Further information on hospitals in Northern Ireland is available at

This job description will be subject to review in the light of changing circumstances and may include other duties and responsibilities as may be determined. It is not intended to be rigid and inflexible but should be regarded as providing guidelines within which the individual works.

Please note that the Health and Social Services organisations operate “No Smoking” policies and all employees must comply with this policy.

AN EQUAL OPPORTUNITIES EMPLOYER

ⁱ The 'offer date' refers to the 'initial offers released' date set in each recruitment round; [Recruitment Timelines](#).

ⁱⁱ Eligibility for the specialist register must have been approved by the GMC to be considered.

ⁱⁱⁱ 'When is this evaluated' is indicative but may be carried out at any time throughout the selection process.

^{iv} 'Selection centre' refers to a process, not a place. It involves a number of selection activities which may be delivered as part of the assessment process.

^v Internal Medicine Stage 1 Training is the replacement programme for core medicine training. Trainees who have completed core medical training or ACCS (acute medicine) and a further standalone third year (IMY3) in internal medicine training, will be eligible to apply. Those not undertaking the third year of an internal medicine training programme will need to supply an alternative certificate.

^v ACCS (internal medicine) is the new name for ACCS (acute medicine), only those whose programme entails completing the Internal Medicine Stage 1 curriculum will be eligible without requiring an alternative certificate.

^{vi} Details of internationally accredited JRCPTB internal medicine training programmes can be found on the JRCPTB website: <https://www.jrcptb.org.uk/about-us/international-training/locations>

^{vii} Applicants who have an ARCP outcome with all capabilities signed off apart from the full MRCP (UK), will be eligible to apply on this basis, subject to the normal rules on completing the MRCP (UK).

^{ix} Successful completion will normally be an ARCP outcome 1, and it is expected that trainees applying in this position will have completed at least six months of GIM training as part of their higher specialty training programme by the advertised post start date.

^x Eligibility for the specialist register must have been approved by the GMC to be considered.

^{xi} The *Alternative Certificate to Enter Group 1 Higher Physician Specialty Training* is a document designed by the JRCPTB listing the necessary core capabilities required for progression to ST4, as defined in the internal medicine stage 1 curriculum: <https://www.jrcptb.org.uk/internal-medicine>. The certificate is available to download from the Physician Recruitment website: <http://www.phstrecruitment.org.uk/recruitment-process/am-i-eligible/core-capabilities>. Applicants must ensure the version of the form they are using meets the requirements detailed on the website. It is not permissible for doctors who hold a DRN in a UK internal medicine training, or ACCS: internal medicine, programme to use the alternative certificate as an alternative to the ARCP process.

^{xii} Applicants are advised to visit the GMC website which gives details of evidence accepted for registration.

^{xiii} Any time periods specified in this person specification refer to full time equivalent.

^{xiv} For information on how experience in acute care common stem specialties will be counted, please visit the Physician Recruitment website: <http://www.phstrecruitment.org.uk/recruitment-process/am-i-eligible/experience>

^{xv} The Support for Application to another region form, signed by the Training Programme Director of their current Specialty Training Programme confirming satisfactory progress must be submitted to the recruitment office managing that application at time of application.

^{xvi} Programmes in Group 1 higher medical specialties are dual accredited with Internal Medicine Stage 2. Applicants who hold a CCT in internal medicine are eligible to apply but should note that they will be expected to fulfil the internal medicine service requirements of any post they are offered and will be unable to reduce the length of the programme.

^{xvii} Exceptional circumstances may be defined as a demonstrated change in circumstances, which can be shown on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train. Applicants will only be considered if they provide a 'support for reapplication to a specialty training programme' form signed by both the Training Programme Director / Head of School and the Postgraduate Dean in the region that the training took place. No other evidence will be accepted. Please note that this requirement does not apply to trainees who exited UK core training with an ARCP outcome 3 or 4 where they were only missing the full MRCP (UK) diploma.
